Play Pin the Squash Bee on the Flower!

Instructions:

1. After coloring your picture, safely cut out the flower and bee as two separate pieces.
2. Stick the flower on the wall with some tape.
3. Put a piece of tape on the back of the bee cut-out and give it to a friend.
4. With the bee cut-out in hand, blindfold your friend with a bandana or scarf and spin them a couple times in front of where you placed the flower.
5. After a couple spins, have your friend try their best to stick the bee in the middle of the flower without peeking!
6. Switch roles a couple times to see who can get the bees closest to the middle of the flower!
